

About ABC

ABC is an award winning intervention center & the largest 1:1 ABA (Applied Behavior Analysis) intervention center in Malaysia; 1 child, 1 therapist, private classrooms.

ABC is supervised by a Board Certified Behavior Analysts, who facilitates ABA trainings, programming and supervision in ABC using the Pennsylvania training and technical assistance network (PaTTAN) technology developed in USA by Dr. Amiris Dipuglia (BCBA) & Mr. Mike Miklos (BCBA).

ABA therapy is recognised as the “gold standard” for autism treatment. ABA also supports children with:

- Speech delays
- ADHD (Attention Deficit Hyperactivity Disorder)
- GDD (Global Developmental Delay)
- SPD (Sensory Processing Disorder)
- Social and behavioral challenges
- General delays in development

Is my child too young to start therapy?

It's never too early or too late to start. Our youngest to start the program is 16 months old and the eldest, 34 years old. Both made progress through therapy!
