International Education

Cambridge International School

OUR VISION

To provide opportunities and clear education pathway for everyone.

OUR MISSION

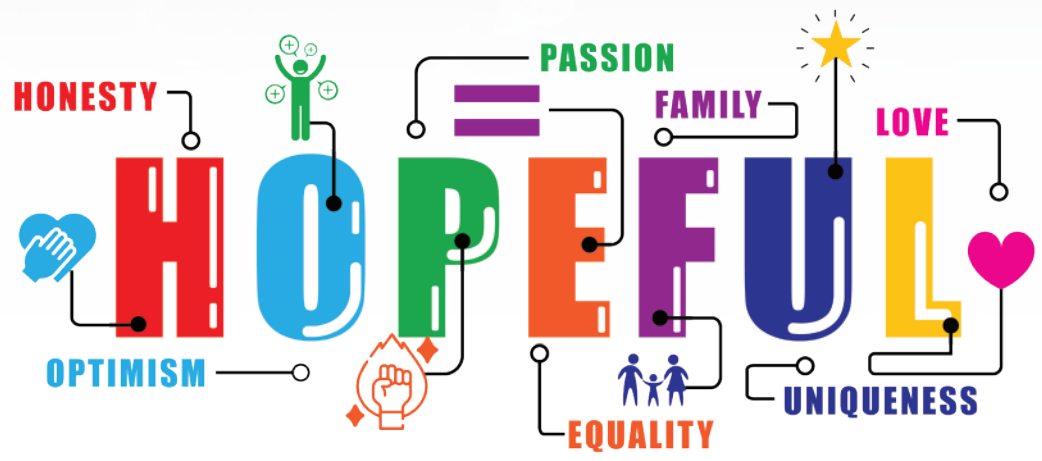

To develop 30,000 well-rounded and thoughtful students in 5 years.

To transit 10,000 gifted kids to normal stream in 5 years.

CORE VALUES

Children Must Be Taught How To Think, Not What To Think

MESSAGE FROM OUR GROUP PRINCIPAL

At Pine Hills International School, we are dedicated to providing an education that inspires excellence, cultivates character, and prepares students for success in an increasingly globalised world. Our philosophy is rooted in the belief that every child is unique and capable of achieving greatness when nurtured in a supportive and challenging environment.

As a Group Principal, I am proud to lead a school that combines academic rigour with a holistic approach to personal growth. Our curriculum is designed not only to equip students with knowledge and skills but also to foster creativity, resilience, and critical thinking. Equally important, we place strong emphasis on values such as integrity, respect, and compassion, which serve as guiding principles in all aspects of school life.

I warmly invite you to join our Pine Hills family, where education is not only about academic achievement but also about shaping future-ready individuals who will contribute positively to society.

We look forward to welcoming your family and walking alongside you as we help your child discover, grow, and flourish.

DR. ISAAC WILSON
Group Principal
Pine Hills International School

To reflect our belief, I share these simple lines with you:

*Every voice is heard, every dream takes flight,
Each child's journey shines so bright.
With love and care, their path we chart,
Every student matters, in head and heart.*

5

PILLARS OF HOLISTIC LEARNING AT PINE HILLS

We believe that learning does not just happen within the four walls of a classroom.

01.

HENKAN Programme:

Students learn by doing. They build things, solve problems, and test ideas. They cook and work at home with family. They volunteer and serve their community from an early age. Leadership, entrepreneurship, and empathy grow through hands-on projects and real-world practice.

02.

Ignite Showcase:

Turning knowledge into confidence as students present, perform, and shine.

03.

Cultural Exchange:

Broadening minds and hearts through global connections and shared experiences.

04.

Learning Through Agriculture:

Cultivating responsibility, patience, and respect for nature through real-world learning.

05.

Encouraging AI:

Preparing future innovators to shape tomorrow's world through technology and creativity.

At Pine Hills, we believe that true education extends beyond academic achievement — it is about shaping character, nurturing potential, and inspiring every learner to discover their unique purpose. Our Signature Experiences represent the heart of this vision, bringing together five transformative initiatives that empower students to learn, lead, and grow in meaningful ways: HENKAN programme, Ignite Showcase, Cultural Exchange, Learning Through Agriculture, and Encouraging AI.

Each of these initiatives embodies our commitment to holistic and future-focused education. HENKAN programme fosters personal growth and resilience through a journey of self-discovery and character development. Ignite Showcase celebrates creativity, talent, and innovation, giving students a platform to express their passions and ideas with confidence. Cultural Exchange broadens perspectives by immersing learners in diverse global experiences, nurturing understanding, adaptability, and empathy across cultures.

Learning Through Agriculture, students reconnect with nature and sustainability, gaining hands-on understanding of responsibility, patience, and the cycles of growth. Meanwhile, Encouraging AI prepares them for the future by blending human values with technological curiosity—equipping learners to navigate and shape an ever-evolving digital world.

Together, these five pillars of experience create a powerful framework for growth—where curiosity meets compassion, and innovation is grounded in integrity. At Pine Hills, we do not just educate minds; we nurture hearts, build character, and ignite the light of lifelong learning within every child.

Nurturing knowledge, creativity, and character.

HENKAN Programme

We believe education should not only teach knowledge—it should ignite transformation. A hands-on learning that transforms curiosity into real-world understanding. This is the vision behind our flagship HENKAN Programme. This programme is designed to empower students with the skills, confidence, and mindset to flourish in every stage of life.

HENKAN Programme is not a single event. It is a journey of self-discovery that challenges students to think differently, act with purpose, and embrace growth beyond the classroom.

“ HENKAN is Pine Hills’ commitment to ensuring that every student not only learns, but evolves into the best version of themselves. ”

Recent Community Initiatives

- **Year 3 students** designing and maintaining a community garden that provides fresh produce to local food banks
- **Year 7 students** creating literacy materials for early childhood centres in underserved areas
- **Year 9 students** developing technology workshops for senior citizens to reduce digital isolation
- **Year 10 students** mentoring primary school students in STEM activities and character development

HENKAN transforms individuals. Through ongoing community service, students inspire positive change beyond graduation, fostering leadership at Pine Hills.

Equipped with necessary qualities, **HENKAN** serves as a life-changing force, shaping compassionate leaders for a brighter and better society.

What is **HENKAN**?

"Transforming individuals into compassionate leaders, igniting a legacy of positive change and a brighter society."

HENKAN

Programme

Our aim is to mold strong future leaders by fostering moral values and developing leadership skills. Through a customized PSHE programme and community service activities, we continue these life-long lessons, equipping our students with the essential qualities needed to become compassionate leaders. With HENKAN, our students gain the Attitude, Behavior, Character, and Discipline necessary to navigate challenges, inspire others, and make a lasting impact in the world.

This is more than a programme; it is your child's pathway to becoming the person they were meant to be - a leader of unshakeable character who changes the world while staying rooted in family, service, truth, and ethical innovation.

“ Every step of learning is a step towards **HENKAN.**”

HOSPITAL PAKAR KANAK-KANAK UKM (HPKK)

With every lesson and experience, students move closer to HENKAN, growing in resilience, values, and self-belief.

Transforming Values Into Character

HENKAN Programme

Our educational philosophy is rooted in nurturing strong character as much as academic excellence. We believe that values must be lived, not just taught, which is why our guiding principles are intentionally woven into every lesson, activity, and interaction. These principles shape the way our students learn, grow, and engage with others—helping them build not only knowledge, but also the character and confidence to thrive in school and in life.

Together, they remind our students of the importance of treating others with fairness and respect, cherishing the bonds of community, embracing their individuality, and showing kindness in all they do. By weaving these values into daily life, we ensure that our graduates leave Pine Hills with more than academic knowledge; they carry with them wisdom, compassion, and the strength of character to lead meaningful and purposeful lives.

**“
With hope as a
foundation,
learning evolves
into an
engaging
journey, and
every mistake
becomes a
lesson in
resilience.”**

Our Approach to Character Development

Life Skills

Family Bonds

Character Development

We instill deep character virtues that become the foundation for all future success, focusing on integrity, resilience, and moral courage.

Ethical Entrepreneurship

We cultivate business acumen rooted in absolute integrity, teaching students to build enterprises that create positive change while maintaining uncompromising ethics.

Community Service

Our students commit to lifelong service through dedicated charity partnerships, learning that true leadership means serving others before self.

BUILDING CHARACTERS

At Pine Hills School, we believe true education goes beyond the walls of a classroom. It is about shaping individuals who carry strong values and an unshakable sense of self. Our approach ensures that students grow in integrity, empathy, resilience, and responsibility—traits that form the foundation of their personal and academic journeys.

Through collaborative projects, community initiatives, and leadership opportunities, students are encouraged to step outside their comfort zones, face challenges with courage, and learn the importance of perseverance. Whether it is presenting their ideas to an audience, working as part of a diverse team, or taking responsibility as a school leader, each experience becomes a stepping stone in shaping their character.

We foster an environment where mistakes are seen not as setbacks but as learning opportunities. Students are guided to reflect on their actions, celebrate their progress, and continuously improve. By the time they leave Pine Hills, they are not just equipped with knowledge—they embody the values that prepare them to lead with kindness, confidence, and purpose.

SHAPING FUTURES

Every child is born with unique potential waiting to be discovered, and at Pine Hills, our mission is to bring that potential to life. Education here is not about memorizing facts—it is about nurturing curiosity, sparking creativity, and building the skills needed to thrive in a rapidly changing world.

We blend rigorous academics with innovative programs that challenge students to think critically, communicate confidently, and act with vision. Initiatives like the Ignite Showcase give students real-world platforms to share their passions, articulate their discoveries, and build the confidence that will carry them into future studies, careers, and beyond.

Students are encouraged to look at learning as a lifelong adventure. With opportunities to engage in international camps, cultural exchanges, creative projects, and problem-solving experiences, they learn to adapt, collaborate, and innovate. By focusing on both academic achievement and personal growth, Pine Hills prepares students not just for exams, but for life.

Ultimately, we are shaping tomorrow's leaders, thinkers, and changemakers. Students graduate not only with knowledge, but with the courage to dream big, the creativity to find solutions, and the determination to make a difference in the world.

Ignite Showcase

Where Learning Comes Alive

At Pine Hills School, education is not about memorizing facts—it is about sparking curiosity, building confidence, and empowering students to discover their limitless potential. We believe that every child has a unique voice, and through the Ignite Showcase, that voice is given the stage it deserves.

-  **Passion Projects** – Students dive deep into research and innovation, guided by curiosity and relevance.
-  **Showcase Platforms** – Opportunities to present and perform build confidence and public speaking skills.
-  **Leadership Challenges** – Real-world scenarios where students take charge, make decisions, and learn accountability.
-  **In-Depth Learning** – Through inquiry, exploration, and reflection, students develop a profound understanding of concepts, discovering the connections between subjects and real-world experiences.

More Than a Presentation

A Journey of Growth

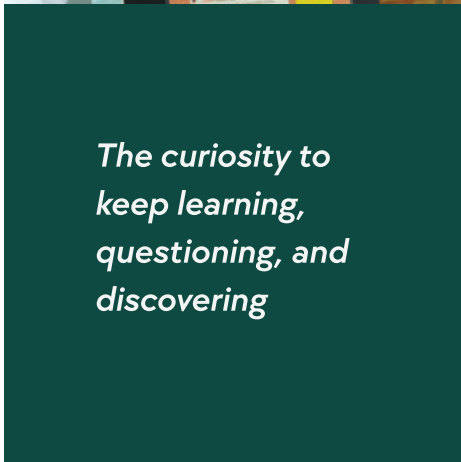

These are the skills that extend far beyond school. They shape students into future leaders, innovators, and changemakers—ready to step into the world not just with knowledge, but with the courage to use it.

The resilience to embrace challenges and overcome setbacks

The confidence to speak and present with impact

The curiosity to keep learning, questioning, and discovering

The ability to think critically and creatively

The Ignite Showcase is more than an event; it is an authentic intellectual journey that equips students with vital 21st-century skills

Cultural Exchange

Immerse yourself in our Cultural Exchange Day, celebrating diversity and sharing your cultural tapestry.

Our Cultural Exchange Programme provides students with the opportunity to explore new cultures, experience global learning, and build lifelong friendships with peers around the world. Students participate in short-term and long-term study programmes, school immersion experiences, and cultural workshops that nurture global understanding and empathy.

Memorandum of Understanding (MOU)

The purpose of this MOU is to set out a shared understanding between the parties and provide a framework for meaningful collaboration. It reflects the commitment of both organizations to work together towards common goals and to strengthen cooperation in areas of mutual benefit.

Through this MOU, the parties intend to collaborate in areas of mutual interest by promoting partnership in education. This collaboration will include the exchange of knowledge, skills, and expertise, the development and support of joint programmes and initiatives, and the organization of activities that strengthen professional and community engagement. The parties also aim to foster innovation by encouraging creative solutions, advancing capacity building through training and mentorship, and supporting professional growth opportunities for individuals and teams. Together, these efforts will enhance institutional strengths, broaden outreach, and create lasting impact for the communities and stakeholders served by both organizations.

Student Exchange

Learning Through Agriculture

At Pine Hills, education is not confined to four walls. We believe that some of the most valuable lessons happen when students are given the chance to explore, experiment, and connect with the world around them. In this learning moment, guided by a teacher, students engage in practical, hands-on discovery—building curiosity, problem-solving skills, and teamwork. By integrating real-life experiences into our curriculum, we nurture not only academic growth but also resilience, responsibility, and respect for the environment. These experiences prepare our students to think critically, act compassionately, and thrive beyond the classroom.

“ Learning goes beyond the classroom at Pine Hills. Through hands-on experiences and guided discovery, our students connect knowledge with real-world practice—growing not only in understanding but also in character. ”

Where Knowledge Meets Experience

Designing and maintaining a community garden that provides fresh produce to local food banks.

Reinforcing the value of learning about the environment.

Encouraging AI Usage

Your child will graduate into a world where AI is EVERYWHERE. So why are schools still teaching them to compete against machines instead of COLLABORATING with them? The future belongs to those who can make AI their creative partner, not their enemy. Your child deserves to be AI-empowered, not AI-afraid.

Embracing AI

At Pine Hills International School, we embrace innovation by integrating Artificial Intelligence (AI) into our learning ecosystem. Students are not just users of technology—they become creators, thinkers, and problem-solvers prepared for a digital future. Through hands-on projects, coding challenges, and real-world applications, our learners explore how AI transforms industries and daily life.

From understanding machine learning concepts to applying AI in robotics, research, and creative problem-solving, students cultivate critical thinking, ethical awareness, and future-ready skills. At PHIS, we nurture young minds to harness technology responsibly and imaginatively, empowering them to lead in a world shaped by intelligent innovation.

- **Future-Ready Skills**

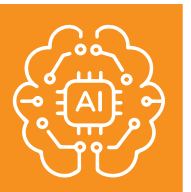

Students gain essential digital literacy and analytical skills that prepare them for tomorrow's tech-driven world.

- **Creative Problem-Solving**

Through hands-on AI projects, students learn to think critically, innovate, and create real-world solutions.

- **Ethical Understanding**

We emphasize the responsible use of technology, helping students make positive contributions to society through AI.

Pine Hills AI Advantage

Accelerate Learning

- 5 times faster on routine work means deeper learning and enhanced critical rigor. We turn efficiency into profound understanding.

Embodied Understanding

- Students engage through movement and performance to create powerful multi-sensory experiences, but permanently wired for life.

Creative Transformation

- Academic work is transformed into engaging performance. Students craft essays into memorable masterpieces and reports into high-impact performances.

Intrinsic Motivation

- When education is creative expression, not just facts, students are internally driven. They are highly engaged and beg for more learning time.

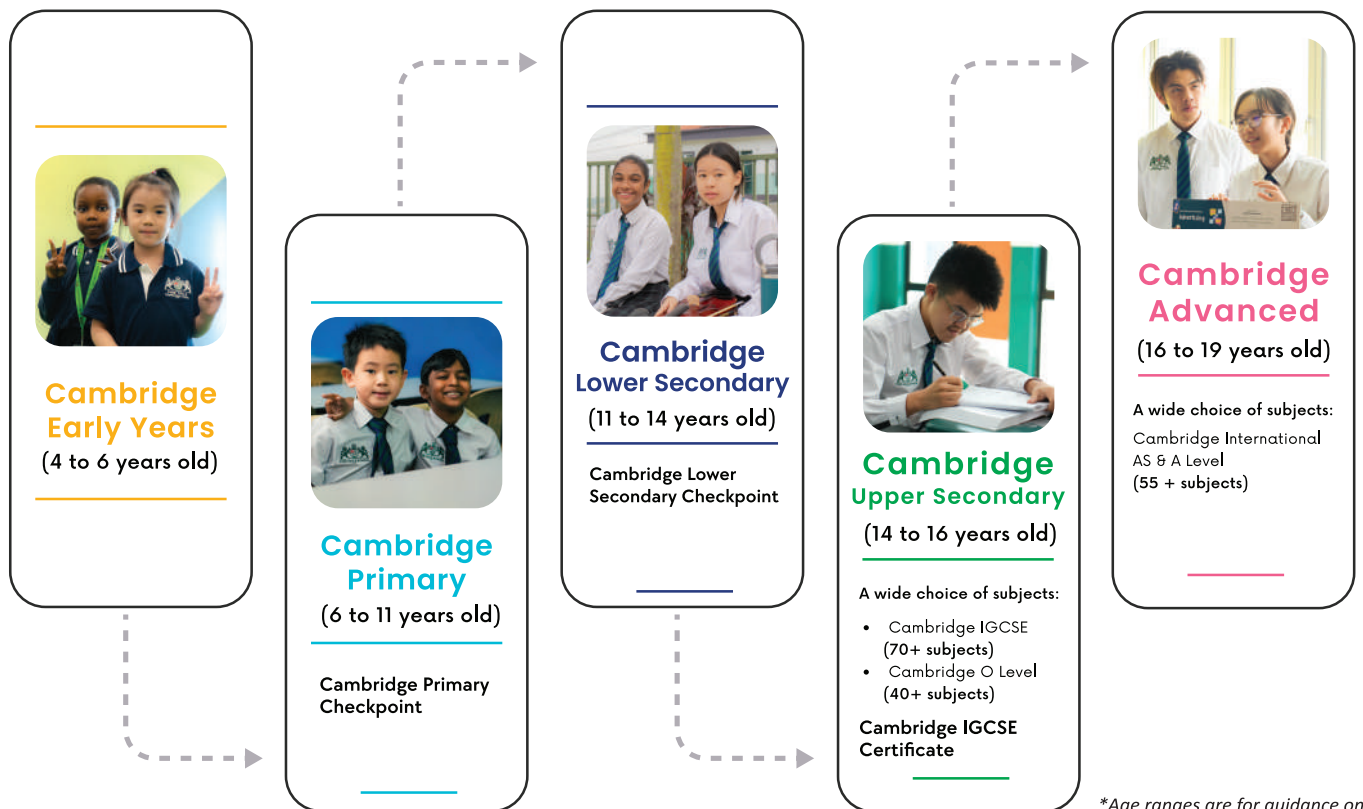

Cambridge Assessment International Education

We foster an environment that nurtures informed curiosity and ignites an everlasting passion for learning. With our esteemed Cambridge Pathway, students aged 4 to 19 embark on a clear and purposeful journey towards educational excellence.

CAMBRIDGE PATHWAY

Learn . Discover . Achieve

**Age ranges are for guidance only*

The five stages of Cambridge Pathway lead seamlessly from pre-school to primary to secondary and pre-university years.

Through the Cambridge Pathway, schools have the freedom to tailor the curriculum to suit their students' unique learning styles. We offer a diverse range of subjects and flexible approaches to deliver them, empowering students to uncover their hidden talents and broaden their horizons. Our comprehensive education not only imparts knowledge but also equips student with the essential life skills they need to thrive at school, university, and in the professional world. We believe that education extends far beyond the classroom. Our holistic approach cultivates well-rounded individuals, prepared to tackle the challenges of the future. Join us on this transformative voyage of discovery, where students unlock their full potential and forge a path towards lifelong success.

Little Pine Hills (Early Years)

Age 4 – 6 Years Old

Welcome to Pine Hills Preschool, a nurturing space where curiosity takes flight and wonders come alive. Our Early Years Foundation Stage, fondly known as Little Pine Hills, is thoughtfully designed to provide a safe, joyful, and stimulating environment where young learners can explore, imagine, and grow.

At Little Pine Hills, we believe that every child is naturally curious and full of potential. Through play-based learning, hands-on discovery, and guided exploration, children develop essential early skills in language, numeracy, creativity, and social interaction. Our teachers create an atmosphere filled with warmth and encouragement, ensuring that each child feels valued, confident, and inspired to learn.

This stage is not just about preparing for primary school—it is about building a strong foundation for lifelong learning. Children are encouraged to express themselves, develop independence, and build meaningful friendships that help them grow emotionally and socially.

Parents can take comfort in knowing that their child's journey at Little Pine Hills is one of care, discovery, and joyful learning, where imagination is celebrated and character is nurtured every step of the way.

SUBJECTS

- Smart English
- Easy Mathematics
- Junior Science
- Fun Malay
- Creative Arts
- Music & Movement
- Mandarin
- Character Education
- Basic ICT
- Social Studies

Primary

(Year 1 - Year 6)

Age 6 – 11 Years Old

Welcome to the vibrant world of primary education, where learning becomes an adventure filled with joy and discovery.

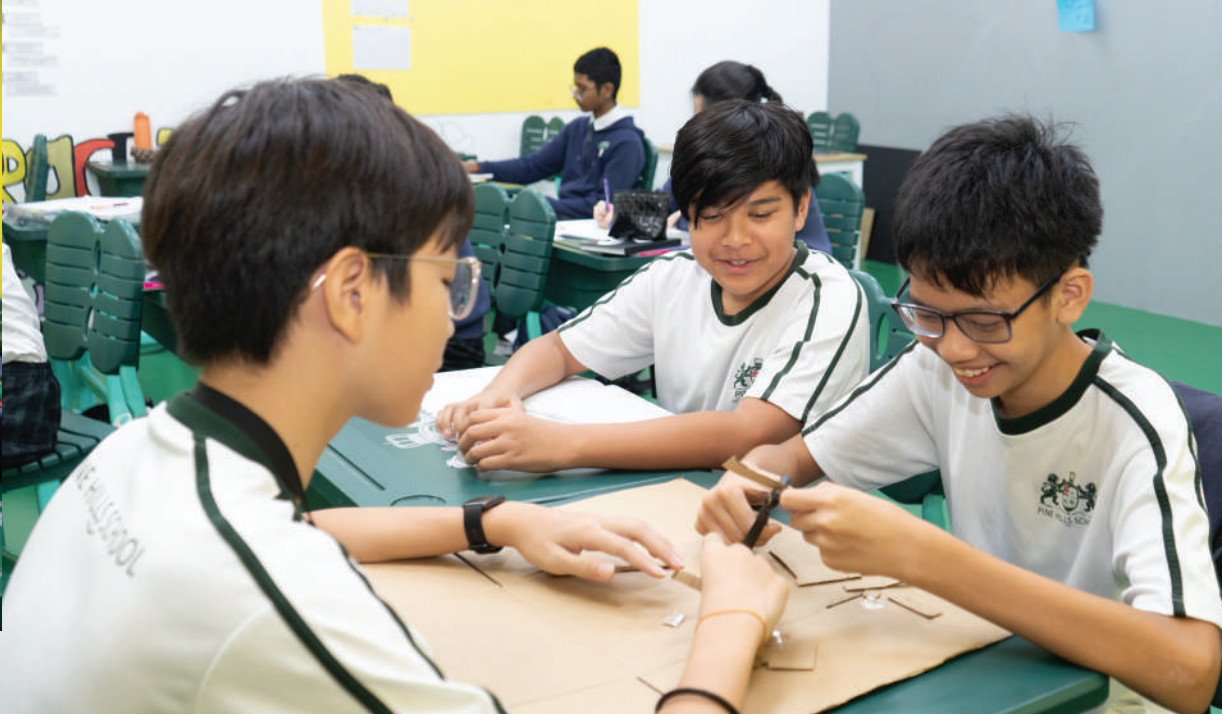

KEY STAGE
1 & 2

At our school, we believe that the primary years are a time of immense fun and growth. We understand the importance of nurturing their love for learning and providing a balanced curriculum that combines academic excellence with holistic development.

We proudly offer the renowned Cambridge Primary curriculum, a world-class educational framework that focuses on developing essential skills and understanding in English, Mathematics, and Science. At the end of Year 6, students take the Cambridge Primary Checkpoint tests, designed to assess their knowledge and skills. These tests provide valuable feedback on their strengths and weaknesses, empowering us to tailor their education accordingly as they transition to the next stage.

SUBJECTS

- English
- Mathematics
- Science
- Humanities
- ICT
- Malay Language
- Mandarin
- Visual Arts
- Music
- Performing Arts
- Physical Education
- PSHE / Islamic Study

KEY STAGE
3

Lower Secondary

(Year 7 - Year 9) Age 11 – 14 Years Old

This is the exciting and transformative stage of lower secondary education, where students embark on a more serious academic journey. This period is characterized by a focus on enquiry-based and problem-solving learning, encouraging students to think critically and independently. It provides ample opportunities for independent study, empowering students to make informed choices and decisions on their own.

To assess students' progress and provide valuable feedback, we implement the Cambridge Lower Secondary Checkpoint tests. These assessments, available in English, Mathematics and Science are conducted at the end of Cambridge Lower Secondary. They offer a comprehensive evaluation of students' strengths and weaknesses, equipping us with the knowledge to guide their educational path towards the next stage.

SUBJECTS

- English
- Mathematics
- Biology
- Physics
- Chemistry
- Humanities
- PSHE / Islamic Study
- ICT
- Malay Language
- Mandarin/French
- Commerce (Year 9 only)
- Visual Arts
- Music
- Performing Arts
- Physical Education

Upper Secondary

(Year 10 - Year 11) Age 14 – 16 Years Old

Welcome to the dynamic and transformative phase of upper secondary education, where students embark on a two-year journey to prepare for the prestigious Cambridge IGCSE examinations at the end of Year 11. During Key Stage 4, students engage in a comprehensive curriculum that includes English Language, Mathematics, Malay as a Foreign Language (compulsory for Malaysians), and Physical Education. Additionally, students have the opportunity to select subjects aligned with their individual aspirations and abilities.

Throughout their upper secondary journey, students benefit from personalized guidance that fosters their growth and enables them to reach their full potential. This guidance, coupled with our teachers' dedication, contributes to the exceptional achievements our students attain.

(*) Only applicable in Petaling Jaya, Shah Alam & Kuala Lumpur

“
**Tak
Kenal
Maka
Tak
Cinta**”

Parent **TESTIMONY**

My daughter has grown immensely during her time here, learning not just about academics but also about important life skills like teamwork and collaboration.

The teachers at Pine Hills give more than 100% to their students. I witnessed this firsthand when my daughter faced challenges in certain subjects. The teachers reached out, arranged extra online tuition sessions, and provided the support she needed to overcome those difficulties. Their commitment to their students' success is truly commendable.

The way the school treats its students is remarkable—fostering a harmonious environment where students are respected, nurtured, and guided not just as learners but also as individuals.

Thank you from the bottom of my heart to all the teachers and staff for making such a positive impact on my daughter's life.

We chose to enroll our son, Mikhail, at Pine Hills after hearing about it from a patient receiving hippotherapy with us. As professionals working with children like Mikhail, we were drawn to the school's inclusive approach.

Mikhail has faced challenges with focus and tantrums, making it hard for him to stay in a classroom for long. After exploring several schools, we found Pine Hills to be the only one that truly supported his needs.

What stood out was the exceptional support from the staff. Unlike many schools that claim to offer inclusivity, Pine Hills genuinely delivers. The teachers are dedicated and create a nurturing environment for all students.

Pine Hills has been an excellent choice for our family, and we are deeply grateful for their care and commitment.

Dr Ali Azman Minhaj

MBBS (Mal) MRCP (UK) Consultant Paediatrician

Mikhail Imran's Father

“
**Makes
This
Vision A
Reality**”

PTCに通う機会に感謝しています。先生方とお話することで、子どものことをより理解することができます。時には、私たち親よりも先生の方が子どものことをよく理解してくれていることもあります。

I am grateful for the opportunity to attend PTC. Talking to the teachers helps us understand our child better. Sometimes the teachers understand our child better than we parents do.

(Year 4 Fumi's Mother)

Choosing Sri Pine Hills for our daughter has been one of our best decisions. Under the caring guidance of Ms. Pinky and her dedicated team, she has grown into a confident, empathetic, and responsible young person. The school not only builds strong academics but also inspires character, values, and joy in learning. We are sincerely grateful to Sri Pine Hills for playing such a pivotal role in shaping our daughter's journey. Watching her thrive — not only in her studies but also as a kind, thoughtful, and joyful young person — is a blessing we will always cherish.

(Year 3, Teekshana's Parent)

We love the school and its amazing community. Saran's progress in confidence and social skills has been incredible, thanks to her inspiring teachers. In just a month, Pine Hills feels like home. Excited for the November 30th meeting. Thank you for your exceptional work!"

(Year 2, Saran Diakite's and Preschool, Mohamed Diakite's Parents)

I used to think that Krishuela was a quiet and somewhat unsure girl. However, today has proven me completely wrong. I witnessed her confidently expressing herself to others, and it filled me with pride. This transformation reflects the incredible support and opportunities provided by the school to help children grow into confident and capable individuals.

(Year 5, Krishuela's Father)

Special Needs

Gifted Kids Care Center (Testimonials)

“

Thanks to The Gifted Kids Care Centre and teachers for overall holistic development of my child. I have noticed much positive changes in his attitude, education, and perspectives. Thanks to all the hard-working teachers. Any parent looking for good school for their child. I strongly recommend The Gifted Kids Care Centre for your kid as best school. Thank you for being my child's second parent and a fantastic mentor.

(LSU 2, Iman's parent)

“

"From the very first day I came in, I noticed the unique qualities of each individual and the way we all experience life differently. It reminded me of how we often talk about school—about playing with friends, tackling challenges, and figuring out solutions. I've realized that everyone has their own special gift, something truly unique to them. I believe that by creating the right space, we can help identify and nurture these gifts, allowing everyone to shine in their own way."

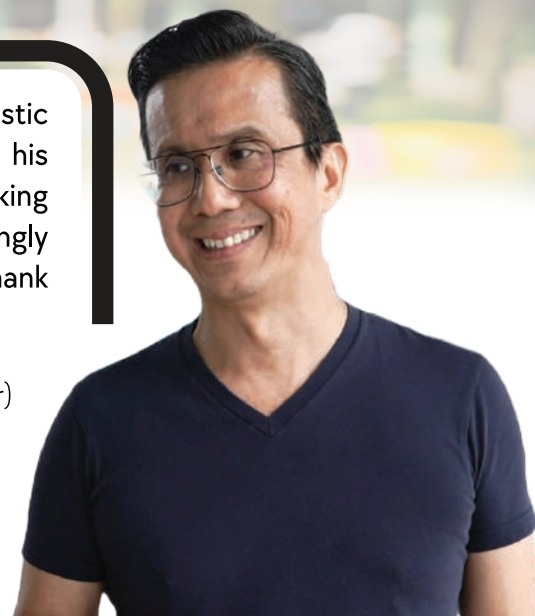

(MK 2, Zephyrus's Father)

“

Thanks to The Gifted Kids Care Centre and teachers for overall holistic development of my child. I have noticed much positive changes in his attitude, education, and perspectives. Thanks to all the hard-working teachers. Any parent looking for good school for their child. I strongly recommend The Gifted Kids Care Centre for your kid as best school. Thank you for being my child's second parent and a fantastic mentor.

(Grade 5, Jine Pheng's Father)

“ Pine Hills Schools Reignited Hope in My Special Needs Kid ”

Ms. Grace shared that her child was previously struggling, which was distressing, especially after other schooling attempts proved unhelpful.

Since attending the school, my child has achieved remarkable progress in two key areas:

Self-Feeding Independence:

- The child moved from being unable to feed himself to now being able to eat independently. This major milestone is visually shown in the video.

Speech Improvement:

- His language development has advanced significantly. Previously, he could only utter one or two words, but his speech is now improving a lot and progressing steadily.

Ms. Grace wholeheartedly attributes this life-changing success to the school's unwavering support and, most specifically, to the patience and dedicated teaching of the teachers. She expresses profound gratitude, describing how the staff provided her with a much-needed guidance and the essential assurance that her children were absolutely not hopeless. This support restored her hope and confidence in her child's potential for growth.
