

DRIPPING COLOURS PARENTING SYSTEM

You are just a click away from accessing your child's daily update! Dripping Colours Parenting System provides all you need to know about your child daily. You can log in daily to check learning progress and it comes with pictures. Aside from child's update, the system allows you to receive update/ news about the centre, weekly menu etc. It does more than you can imagine.

JOLLY LEARNING

Our children will embark in a fun feel English lesson with Jolly Learning. Jolly Phonics teaches children to read and write using synthetic phonics which is widely recognised as the most effective way to teach children to read and write in English from early age. The programme continues throughout the school years by extending the earlier phonics teaching with further spelling, grammar and punctuation concepts. Each year of teaching provides continuous revision and consolidation of topics taught in previous years. The teaching will be multi-sensory with actions and colour coding (fitting with Montessori) for parts of speech to help children develop their understanding of how language works.

Open For Registration!

Our centre opens registration for new students. Register now!

MONTESSORI

NURTURING TO SUCCESS

www.drippingcolours.com

● MONTESSORI

We nurture the little one with interesting Montessori method. Montessori is a method of education that is based on self-directed activity, hands-on learning and collaborative play. In Dripping Colours, our children make their own creative choices in learning. Our classrooms are equipped with age-appropriate activities and experienced teacher who are able to guide children through the activities. Children work in group and individually to discover and explore knowledge of the world and to develop their maximum potential.

"Tell me and I forget,
teach me and I may
remember,
involve me and I learn."

- Benjamin Franklin

● REAL LIFE EXPERIENCES

Fun curriculum designed with thematic approach is prepared for our children. Thematic approach is one of the key. This is a way of teaching and learning, whereby many areas of the curriculum are connected together and integrated within a theme. It allows learning to be more natural and less fragmented. Aside from in-school activities, we arrange suitable outings or outdoor activities which relevant to the monthly theme and allow children to have real life experience. We believed that real life experience enhance children's learning opportunities. The children will gain so much more from real life experience and we are sure that they are going to love it!

Step by step guides and easy to cook recipes in our cookery session promotes fun and experiential learning
