About Nextgen Preschool

NextGen Preschool was established by Lilian Chan, the founder of the NextGen Themepark. As a mother of three children, her vision for setting up this school is to create a nurturing and innovative learning environment where children can flourish and reach their full potential.

Our Vision

Our vision is to inspire a lifelong love of learning in every child. We aim to empower and create a happy generation of children that is confident, curious, and creative thinkers.

Our Mission

Our mission is to provide a developmentally appropriate, play-based program that supports each child's social-emotional, cognitive, and physical development. We strive to create opportunities for children to explore, experiment, and engage in hands-on experiences that promote their learning and growth.

Our Value

We believe that children have their own unique personalities, strengths, and interests, and that it is our role as educators to provide them with experiences that support their individual growth and development.

WHAT IS THE EYFS CURRICULUM?

At NextGen Preschool, we follow the British Early Years Foundation Stage Curriculum. Our educational programme and philosophy is implemented to help children achieve their developmental milestones and prepare them for later education. All teaching at NextGen Preschool is based on knowledge and understanding of the British Early Years Foundation Stage Curriculum. Our EYFS curriculum concentrates on 7 areas of learning that are equally vital to children's development.

The EYFS is based upon four principles.

The prime areas of learning are:

- Communication and Language
- Physical Development
- Personal, Social and Emotional Development

The specific areas of learning are:

- Literacy
- Mathematics
- Understanding the World
- Expressive Arts and Design
