

SOLVE THE EQUATION

Solve the equation by colouring the correct number of flowers.

$$\begin{array}{c} \text{Red Flower} \quad \text{Red Flower} \quad \text{Red Flower} \\ | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} + \begin{array}{c} \text{Red Flower} \quad \text{Red Flower} \quad \text{White Flower} \quad \text{White Flower} \\ | \quad | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} = \boxed{5}$$

$$\begin{array}{c} \text{Blue Flower} \quad \text{Blue Flower} \\ | \quad | \\ \text{Stem} \quad \text{Stem} \end{array} + \begin{array}{c} \text{White Flower} \quad \text{White Flower} \quad \text{White Flower} \\ | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} = \boxed{3}$$

$$\begin{array}{c} \text{Red Flower} \quad \text{Red Flower} \quad \text{Red Flower} \\ | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} + \begin{array}{c} \text{White Flower} \quad \text{White Flower} \quad \text{White Flower} \quad \text{White Flower} \\ | \quad | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} = \boxed{7}$$

$$\begin{array}{c} \text{Blue Flower} \quad \text{Blue Flower} \\ | \quad | \\ \text{Stem} \quad \text{Stem} \end{array} + \begin{array}{c} \text{White Flower} \quad \text{White Flower} \quad \text{White Flower} \\ | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} = \boxed{4}$$

$$\begin{array}{c} \text{Red Flower} \quad \text{Red Flower} \quad \text{Red Flower} \\ | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} + \begin{array}{c} \text{White Flower} \quad \text{White Flower} \quad \text{White Flower} \quad \text{White Flower} \quad \text{White Flower} \\ | \quad | \quad | \quad | \quad | \\ \text{Stem} \quad \text{Stem} \quad \text{Stem} \quad \text{Stem} \quad \text{Stem} \end{array} = \boxed{6}$$
