CHINESE STUDIES

Chinese Language Pathways

At MAHANS International School, we recognised that every child's language journey is unique. To support different backgrounds and learning needs, we offer two Chinese language pathways:

Chinese as First Language (CFL)

This pathway is for students with a stronger existing foundation in Chinese and supports deeper language development.

The curriculum includes:

Advanced reading and writing

Recitation and internalisation of selected classical texts and poetry

Cultural understanding and literary appreciation

Guided memorisation is used as a meaningful learning method, helping language take root naturally.

Students develop:

Greater language depth

Stronger thinking skills

Cultural literacy

Chinese becomes not only a subject, but a language for thought, reflection, and learning.

Chinese as Second Language (CSL)

Designed for students from diverse language backgrounds, this pathway builds confidence in Chinese step by step.

The programme focuses on:

Listening comprehension

Functional reading and writing

Understanding both classical and contemporary texts at an accessible level

Clear spoken expression and appropriate communication

Students gradually develop the ability to use Chinese effectively in daily life and learning situations, building a strong and practical foundation.

These pathways do not represent differences in ability, but difference in learning focus and development routes.

“NURTURING GLOBAL MINDSETS CULTURAL VALUES, & LIFE SKILLS

Moving my children to MAHANS International School was the best decision. The school uniquely combines English proficiency with traditional cultural values, while the boarding programme nurtures life skills, independence, and responsibility.

The teachers are exceptionally patient and dedicated—guiding our children both academically and in daily discipline. Beyond offering top-quality, non-commercialized education, the tuition is 50% more affordable than our previous school. Mahan provides everything we could hope for in character-building and future readiness.

The best decision for our children.
